

### Translator Certification

**NOTE:** When research studies purposefully recruit subjects, who do not speak or understand English, all documents that will be presented to them (e.g., consent forms, study information sheets, recruitment materials) must be translated into English for IRB review. The investigator must have the translator complete this certification and upload it into PittPRO.

When studies are conducted at foreign sites, all regulatory documents (e.g., approval letters, summary of meeting minutes, permissions to conduct research at one or more sites) must be uploaded into PittPRO along with English translations and this translator certification.
